1.3	Running Code	4
2	Introduction	5
3	Summary	6
	References	7

1 Interaktive R-Analyse

Preface

1.1 Libraries

```
library(rio)
```

Warning: Paket 'rio' wurde unter R Version 4.4.3 erstellt

```
library(here)
```

here() starts at C:/Users/schneider3/Documents/R/webR-test

1.2 Import Data

```
toy_data <- rio::import(here("data/toy_data.csv"))
```

1.3 Running Code

When you click the **Render** button a document will be generated that includes both content and the output of embedded code. You can embed code like this:

```
1 + 1
```

You can add options to executable code like this

```
[1] 4
```

The `echo: false` option disables the printing of code (only output is displayed).

2 Introduction

This is a book created from markdown and executable code.

See Knuth (1984) for additional discussion of literate programming.

3 Summary

In summary, this book has no content whatsoever.
